MANAGEMENT REPORT OF FUND PERFORMANCE

June 15, 2022

This annual management report of fund performance contains financial highlights, however, but does not contain either the interim or annual financial statements of the investment fund. You can obtain a copy of the interim or annual financial statements at your request, and at no cost, by calling us +1 (905) 239-2436 or toll free at +1 833 444 DAMI (3264), by writing to us at Durham Asset Management Inc., 22 Shorten Place, Ajax, Ontario, L1T 0E9 Attention: Investor Services, or by visiting our website at <https://durhamasset.ca> or SEDAR at www.sedar.com.

DAMI Corporate Bond Fund

Annual Management Report of Fund Performance

For the period ended June 15, 2022

Management Discussion of Fund Performance

The management discussion of the fund performance for DAMI Corporate Bond Fund (the "Fund") represents the views of Durham Asset Management Inc ("DAMI" or the "Manager") of the significant factors and developments affecting the Fund's performance and outlook for the period ended June 15, 2022 (the "period").

Investment Objective and Strategies

The Fund's investment objective is to generate long-term positive returns exceeding the ICE BofA Canada Corporate Index (the "Benchmark"). The Fund's portfolio will primarily be comprised of Canadian and US securities. The Fund may invest up to 20% of its total NAV in securities with credit ratings below investment grade (BBB- or Baa3). However, the overall credit rating of the Fund's investment portfolio is expected to be investment grade.

DAMI will use multiple strategies to meet funds objectives. The manager will employ a "bottom-up" approach, focusing on security selection and then adjusting the portfolio to remain within the manager's duration or credit targets. The strategies generally fall into these categories; Outright Credit Trading strategies, Relative Value Credit Trading, Duration Neutral Portfolio Construction, and New issue participation. For more information about these strategies, refer to the Fund's simplified prospectus ("Prospectus").

Risk

The risks associated with an investment in the Fund are described in the prospectus. During the period that began December 15, 2021, and ended June 15, 2022, there have been no changes to the Fund that materially affected the risk level of the Fund.

Results of Operations

The net asset value ("NAV") of the Fund increased from \$198,687 to \$210,911 from December 15, 2021, to June 15, 2022. The Fund had net sales of \$45,400 for the period.

For the period ended June 15, 2022, Series F units of the Fund posted a loss of -12.97% (gain of 1.1% in the period ended June 30, 2021) while its benchmark, the ICE BofA Canada Corporate Index posted a loss of -12.12% over the same period (loss of -1.42 in the period ended June 30, 2021). Please refer to the "Past Performance" section for performance information of the other series. The performance of the other series of the Fund differs from Series F units due largely to a varying level of expenses charged to each series, as explained in the Management Fees section.

The Fund is very active in terms of its positioning and adapts to market conditions in order to try and obtain the best risk-reward tradeoff for our unit holders. This is done through constant monitoring of the prices and spread level of corporate bond funds and adjusting the duration of the fund.

Recent Developments

During the reporting period, the Fund did not undergo material changes, including but not limited to its investment objectives, risk rating, accounting policies, or composition of its Independent Review Committee.

During the reporting period, inflation consistently rises month over month. The higher inflation resulted in higher yields. This resulted in negative returns from the fixed income index and correspondingly negative returns for the Fund. In the coming months, central banks are expected to hike rates, which could have a material effect on the Fund's returns.

The impact of the coronavirus ("COVID-19") pandemic and the Ukraine-Russia conflict on the financial markets and the economy has been substantial and is expected to have a material effect on bond portfolios for FY2022. Market direction and future outcomes are highly uncertain and cannot be predicted. DAMI continues to monitor market developments; however, if the negative impacts of COVID-19 on financial markets and the economy, in general, continue for a prolonged period, it could have a material effect on the Fund's returns.

Related Party Transactions

DAMI is the trustee, manager, and portfolio advisor of the Fund.

Management Fee

The Investment Manager receives a monthly management fee for providing its service to the Fund. Service includes but is not limited to determining and implementing investment policies, practices, and strategies, ensuring daily operations and administration of the Fund.

The table below outlines the Fund's annual Management Fee rate. It also states the percentage of the total management fees that were used to pay trailer commissions. The remainder of the management fees were used to pay for investment management services. Durham has decided to cover the costs relating to the inception of the fund and other ongoing expenses (for a temporary period).

DAMI has decided to cover some costs relating to the inception of the Fund and other ongoing expenses (for a temporary period) to stabilize the NAV. The table below outlines the Fund's annual Management Fee rate. It also states the percentage of the total management fees used to pay trailer commissions. The remainder of the management fees were used to pay for investment management services.

Annual Fee	Series A	Series F	Series I
Management Fee (Annual Rate)	0.64%	0.39%	0.10%
Trailer Fee (as a % of Management Fees)	39.06%	-	-

Fund Expenses

The Investment Manager will be responsible for the Fund's operating expenses, other than certain Fund costs (the "Fund Costs") described below, in exchange for the payment by the Fund of a fixed-rate administration fee of 0.25% per annum. Operating expense is accrued daily based on the Fund's net asset value before daily management fee accrual.

The Fund Costs which are payable directly by the Fund are fees, costs and expenses associated with all taxes, brokerage commissions and fees (if applicable), borrowing and interest, security holder meeting fees, the operation of the independent review committee ("IRC") (including the costs of holding meetings, and fees and expenses of any advisers engaged by the IRC) or other advisory committees, compliance with any governmental and regulatory requirements.

For the period the Fund did not rely on any approval, positive recommendation, or standing instruction from its IRC concerning any related party transactions.

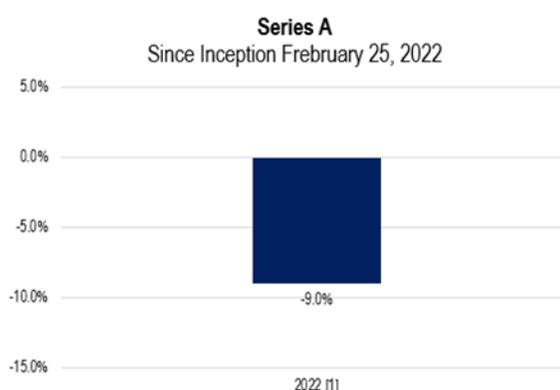

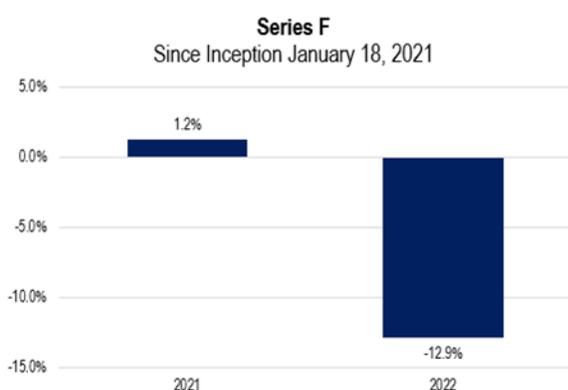

Past Performance

The performance information shown below assumes that all distributions, if any, made by the Fund in the year shown were reinvested in additional units of the Fund. If you hold the Fund outside a registered plan, you will be taxed on distributions. Distributions of income the Fund earns and capital gains it realizes are taxable in the year received whether received in cash or reinvested in additional units. No adjustment for potential tax consequences to an investor has been made to the performance information.

The indicated rates of return are the historical annual compounded total returns including changes in unit value and do not take into account sale, redemption, distribution or other optional charges, that, if applicable, would have reduced returns or performance. An investment in the Fund is not guaranteed. Its value changes frequently and how the Fund has performed in the past does not necessarily indicate how it will perform in the future.

Year-By-Year Returns

The bar charts show the performance of each class of units for the financial period in percentage terms, indicating how much an investment made on the first day of the period would have grown or decreased by the last day of the period, unless otherwise indicated.

[1] Returns shown represent a partial year

Annual Compounded Returns

The following table shows the annual compound total returns of the Fund and for its Benchmark for the period shown ended June 15, 2022. The Relative Performance returns show the performance of the Fund as compared to the benchmark. As the criteria for determining the constituents of the Fund and the Index differ, it is not expected that the Fund's performance will mirror that of the Index. Further, the return of the Index is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses.

	1 Year	Annualized Since Inception
Series F	-12.87%	-8.56%
Benchmark	-11.45%	--9.15%

Past performance information is not presented for Series A as the series had not been in continuous operation for one year.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help readers understand the Fund's financial performance for the period indicated.

Series A - Net Assets Per Unit		
For the period ended June 15, 2022	Note	2022
Net Assets, beginning of period	1, 2	\$ 10.00
Increase (decrease) in net assets attributable to holders of redeemable units:		
Investment income		0.09
Total expenses		(0.02)
Realized gains (losses) for the period		(0.02)
Unrealized gains (losses) for the period		(0.95)
Total increase (decrease) in net assets attributable to holders of redeemable units	3	\$ (0.90)
Net assets attributable to holders of redeemable units, end of period	2	\$ 9.10

Series A - Ratios & Supplemental Data		
For the period ended June 15, 2022	Note	2022
Net assets attributable to holders of redeemable units, end of period (\$)		\$ 11,289
Number of outstanding redeemable units		1,241
Net Assets attributable to holders of redeemable units per unit (\$)		\$ 9.10
Management expense ratio (%)	4	0.92%
Portfolio turnover rate (%)	5	n/a
Trading expense ratio (%)	6	n/a

Series F - Net Assets Per Unit				
For the period ended June 15, 2022 and for the year ended December 15, 2021	Note	2022		2021
Net Assets, beginning of period	1, 2	\$	8.83	\$ 10.00
Increase (decrease) in net assets attributable to holders of redeemable units:				
Investment income			0.13	0.19
Total expenses			(0.03)	(1.35)
Realized gains (losses) for the period			(0.03)	(0.02)
Unrealized gains (losses) for the period			(1.21)	0.01
Total increase (decrease) in net assets attributable to holders of redeemable units	3	\$	(1.14)	\$ (1.17)
Net assets attributable to holders of redeemable units, end of period	2	\$	7.69	\$ 8.83

Series F - Ratios & Supplemental Data				
For the period ended June 15, 2022 and for the year ended December 15, 2021	Note	2022		2021
Net assets attributable to holders of redeemable units, end of period (\$)		\$	199,622	\$ 198,687
Number of outstanding redeemable units			25,955	22,500
Net Assets attributable to holders of redeemable units per unit (\$)		\$	7.69	\$ 8.83
Management expense ratio (%)	4		0.67%	0.61%
Portfolio turnover rate (%)	5		n/a	n/a
Trading expense ratio (%)	6		n/a	n/a

[1] For Series A, the information shown in this column is for the period beginning February 25, 2022 (the Series' commencement date). For Series F, the information shown in this column is for the period beginning January 18, 2021 (the Fund's commencement date), and ending December 15, 2021

[2] The financial highlights are derived from the financial statements prepared in accordance with IFRS. IFRS allows net assets to be calculated based on the last traded market price for financial assets and financial liabilities where the last traded price falls within the day's bid-ask spread.

[3] Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) in net assets attributable to holders of redeemable units is based on the weighted average number of units outstanding over the financial period.

[4] Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

[5] The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio's turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of the Fund.

[6] The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

Forward-Looking Statements

This Management Report of Fund Performance contains forward-looking information and statements relating, but not limited to, anticipated or prospective financial performance and results of operations of the Fund. Forward-looking information involves known and unknown risks, uncertainties and other factors that may cause actual results, performance, or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. For this purpose, any statements that are contained herein that are not statements of historical fact may be deemed to be forward-looking information. Without limiting the foregoing, the words "believes", "anticipates", "plans", "intends", "will", "should", "expects", "projects", and similar expressions are intended to identify forward-looking information.

Although the Fund believes it has a reasonable basis for making the forecasts or projections included in this Management Report of Fund Performance, readers are cautioned not to place undue reliance on such forward-looking information. By its nature, the forward-looking information involves numerous assumptions, inherent risks and uncertainties, both general and specific, which contribute to the possibility that the predictions, forecasts and other forward-looking statements will not occur. These factors include but are not limited to, those associated with the performance of the equity securities market, expectations about interest rates and factors incorporated by reference herein as risk factors.

The above list of important factors affecting forward-looking information is not exhaustive, and reference should be made to the other risks discussed in the Fund's filings with Canadian securities regulatory authorities. The forward-looking information is given as of the date of this Management Report of Fund Performance, and the Fund undertakes no obligation to publicly update or revise any forward-looking information, whether as a result of new information, future events or otherwise.
